

Week #	Project	Core Values	Robot
1	Talk about what it is: discuss the ideas that they brought and continue researching.	Work together to put together remaining mission models.	Watch rule video. Brainstorm what we want the robot to be capable of, decide on base design, start building.
2	Discuss any in-depth research of the ideas from week 1 and any new ideas. Narrow ideas down to 2-3.	Core Values Challenge	Finish building base design, build replica, begin designing attachments.
3	Decide on project(problem and solution), more in depth research, decide how to present.	Core Values Challenge	Continue building attachments, start programming.
4	Continue research.	Core Values Challenge, start working on packet and board.	Continue/finish building attachments, continue programming.
5	Continue research and start contacting professionals.	Core Values Challenge, continue working on packet and board.	Continue programming.
6	Continue research and contacting professionals, start working on packets and models/presentation.	Core Values Challenge, continue working on packet and board.	Continue programming.
7	Continue research, contacting professionals, packets, and working on models/presentation.	Core Values Challenge, continue working on packet and board.	Continue programming. Work on Robot packet.
8	Continue research, contacting professionals, packets, and working on models/presentation.	Core Values Challenge, continue working on packet and board.	Continue programming. Work on Robot packet.

9	Continue research, contacting professionals, packets and working on models/presentation.	Core Values Challenge, continue working on packet and board.	Continue programming. Work on Robot packet.
10	Continue research, contacting professionals, and working on models/presentation(if needed) rehearse presentation.	Core Values Challenge, continue working on packet and board.	Continue programming. Work on Robot packet.
11	Finish everything up and rehearse presentation.	Core Values Challenge, continue working on packet and board.	Continue programming. Finish Robot packet.
12	Review everything and rehearse presentation.	Core Values Challenge, review packet and board.	Timed practice runs. Review Robot packet.
13	Review everything and rehearse presentation.	Core Values Challenge, review packet and board.	Timed practice runs. Review robot packet.
